From the Desk of A.D.D

First of all I would like to offer my hearty congratulation to show your interest in my school. As a student I have learnt that school is not a structure of Four Walls and some furniture but it is more than that. Here we shape the future of loved ones of our respected guardians with the help of good teachers. The core of any good school is the teaching faculty. Good teachers perform many things which are not quantifiable. Having high standards, pursuing excellence. Exhibiting concern for each child. For this reason I am very serious and trying to maintain it in my school. As an Academic Development Director of my school, I am trying to offer the best and advance education in my school and I am very much opened to receive the guidance of education loving guardians. I am summing up with this hope that this school will fulfill the need of my respected guardians.

History of the School

Dehradun Public School was established in 2010 & Managed by PRATIGYA & TYAAG Welfare Society Uttar Pradesh (Registered under the Society Registration ACT 1860). This society is active in Varanasi and Ram Nagar region for the cause of social development & education since last 8 years.

Dehradun Public School which has come up in area of about five acre of land is a C.B.S.E. Affiliated co-educational School From Nur to Class XII having residential facility.

Geography of the School & Campus

Varanasi is well known ancient city where lord Budha has given his first sermon. The Chinese scholar who travelled to Kashi wrote about its Glory, culture and Education System Which was based on Guru-Shishya Parampara. Since early ages this land was fertile and famous for its teaching and preaching friendly Ethos. The Dehradun Public School which is situated in peaceful, pollution free environment near Holy river Ganga is within Administration of Varanasi and very close to Kashi Railway Station and Mughal Sarai Rly. Station. The Motto behind establishment of this school is to provide high standard education to the Saplings of local area and of the adjacent Distt. of nearby state Bihar. The P & T welfare society came up with holy idea to provide quality education to general people in very meager expenses. This idea gave birth of Dehradun Public School, Domari (Parao) very near to the Varanasi city.

VISION

The vision of Pratigya and Tyag welfare society to create an excellent educational institution synthesizing the human values with the highest quality of teaching-learning, using modern technology-driven tools for preparing a well-rounded personality for our society. To shape global and patriotic minds on the Indian soil; To ensure this, the school will give every student an access to top-class infrastructure, and an innovative curriculum that promotes the four dimensional growth of the child imbibing traditional values.

PHILOSOPHY

Every child is unique. It is a well-known fact that two thumbprints are not alike. In the same way, we believe that every child is born with some special qualities. Each child has a unique brain network that shapes how she/he absorbs and responds to stimuli. One way of teaching does not work for every child. We need to teach the way they learn, not force them to learn the way we teach. **Education should foster real understanding:** Understanding is different from acquiring information. Mere acquisition of information relies on memory, understanding relies on conceptual clarity. Schools are not assembly lines of syllabus and exams. We help children make meaning of life and develop the muscle to lead life effectively. .

CURRICULUM

The school has a highly structured C.B.S.E curriculum and a demanding code of ethics. Here the student's individual needs, strength and deficit form the basis of their education.
